ECO-GOLD WestPine MDF – Product Specifications*		
	Imperial	Metric
Density	46 pcf	737 kg/m ³
Internal Bond	130 psi	0.90 N/mm ²
Modulus of Rupture	4,500 psi	31.0 N/mm ²
Modulus of Elasticity	400,000 psi	2758 N/mm ²
Screw Holding Face	325 lbs	1446 N
Screw Holding Edge	300 lbs	1334 N
Thickness Swell	9%	9%
Maximum Linear Expansion & Contraction	0.3%	0.3%
Thickness Tolerance	±0.005 in	±0.127 mm
Formaldehyde Emissions	Less than 0.01ppm. Any formaldehyde in product is naturally occurring in the wood.	

*Specifications vary by thickness. Data provided is representative of 3/4". ECO-GOLD is produced in panel widths of 4' & 5'. Thickness ranging from 2.5mm – 3/4". Please contact a sales representative for more information.

WEST FRASER IS COMMITTED TO ENVIRONMENTAL EXCELLENCE

- West Fraser's MDF products are manufactured from 100% recycled wood fibre that is a by-product of sawmill operations.
- West Fraser's MDF facilities are SCS Global Services® (SCS) certified.
- West Fraser directly manages seven million hectares (seventeen million acres) of forest land, which is all certified by the Sustainable Forestry Initiative®(SFI) – an independent, internationally-recognized sustainable forest management certification program.
- Since the Company was founded in 1955, our operations have planted more than 1.4 billion trees. West Fraser planted more than 62 million trees in 2012.
- West Fraser's Canadian manufacturing facilities have cut direct greenhouse gas emissions (GHGs) by 30% since 2000.
